

Product Announcement

Date: March 31, 2009

NetEx is pleased to announce new versions of eFT, NetEx/IP Requester and Print File Transfer (PFX) for OpenVMS on HP Integrity Systems. The new software products are available, effective immediately.

These software products are interoperable with other supported versions of eFT, NetEx/IP utilities and PFX file transfer products. New licenses are required to operate these software products.

These new releases are as follows:

eFT263I	R 4.0	eFT for OpenVMS on HP Integrity Systems
H267IPI	R 7.0	NetEx/IP Requester for OpenVMS on HP Integrity Systems
H262TI	R 2.0	Print File Transfer for OpenVMS on HP Integrity Systems
