

Product Announcement

Date: June 6, 2011

NetEx is pleased to announce a summer 2011 pricing program for HyperIP WAN Optimization virtual appliance software, effective immediately.

Buy One, Get One Program Highlights:

Who: For every HyperIP WAN Optimization virtual appliance purchased by customers, a second HyperIP annual subscription is free of charge. Free copies of HyperIP must be for the same annual term and for equivalent performance keys.

What: This program is intended for new and existing HyperIP WAN Optimization virtual appliance customers. This program is not associated with the Veeam / HyperIP 2Mb/s bundle.

When: BUY ONE - GET ONE FREE program starts June 6th – Sept 30, 2011.

Why: HyperIP WAN Optimization virtual appliance is easily downloaded over the internet from the NetEx website or the VMware Virtual Appliance Marketplace.

This is a great way to implement WAN Optimization at pricing that has never been seen prior. It is also a great way to build out a redundant configuration or expand HyperIP to other locations.
