**NetEx Joins the VMware Technology Alliance Partner Program**

**MINNEAPOLIS, MN, March 2nd, 2009** – NetEx®, the leader in high-speed data transport over TCP, today announced it has joined the VMware Technology Alliance Partner (TAP) program. The VMware TAP program helps technology vendors integrate their products with VMware virtualization software and deliver timely, joint solutions to mutual customers.

“We are excited to welcome NetEx as the newest member of the VMware TAP program,” said Bernie Mills, senior director, alliance programs, VMware. “The VMware TAP program offers companies like NetEx the tools and resources they need to develop high-value solutions that meet the needs of our mutual customers.”

Virtual HyperIP®, named one of the hot products at VMworld 2008, helps VMware Infrastructure customers improve efficiencies in migration, replication and data transfers while reducing costs and eliminating management complexity,” said Robert MacIntyre, Vice President, Business Development and Marketing at NetEx. The VMware Technology Alliance Partnership provides us access to VMware Infrastructure APIs and helps us build on our successes to bring well-integrated solutions for our joint customers.

With more than 900 members worldwide, the VMware TAP program works with best-of-breed technology partners to provide them a comprehensive set of VMware technical and

marketing services, support, tools and expertise to deliver enhanced value to joint customers.

Virtual HyperIP is a software-only implementation of NetEx's award-winning business continuity and disaster recovery optimization solution for backup, recovery and data replication applications. HyperIP enables unmatched flexibility in deployment and performance scalability on virtual machines and is the industry's first and only software-based data transport acceleration solution, providing infinite scalability without requiring hardware upgrades. HyperIP for VMware is currently available with pricing starting at less than \$1,800 US list.

### **About NetEx**

Formed in 1999 as a spin-off of Storage Technology Corporation (StorageTek®), privately-held NetEx has provided the world's fastest data transport in the industry, along with guaranteed data delivery, for over 20 years to more than 100 of the world's largest and most sophisticated organizations, including some of the most prestigious providers of financial, transportation and telecommunications services and government entities. Customers include BP, Telstra, NTT, Verizon, BellSouth, Qwest, Royal Bank of Scotland Group, LloydsTSB, NDC Health, IRS, American, Lufthansa, Northwest, United Airlines and Kellogg. For more information about NetEx, NetEx/IP or HyperIP, visit [www.netex.com](http://www.netex.com) or call +1-763-694-4300.
